PUBLIC COMMENTS: Liz Sloss stated that she is very excited about the upcoming transition to a Conservancy model of operating the park. Everyone has been working hard on the transition, and it is a significant step towards City Park becoming a world-class Park.

In the Management Report, Chief Executive Officer, Cara Lambright provided an update on the HMGP Stormwater project. On Thursday, there will be a public meeting about the plan. The Park presented the city with the following list of concerns.

- Budget
- Construction Management, and the
- Cooperative Endeavor Agreement.

Representative Hilferty introduced House Bill 1042, which would require the Park to hire two full-time staff members to monitor the drainage project, and report to neighborhoods. Due to the bill's requirements, this will impose a substantial financial burden on City Park.

Commissioner Larry Katz inquired about the Voodoo contract. Lambright stated that we have been in contact with the promoter.

There was a brief discussion regarding the Legislative Session
Lambright provided an update on the transition to the City Park Conservancy.

**CPIA Bylaw Approval Process**

- The Working Group made recommendations regarding the Bylaws and Slates
- Presentation to the Task Force
- Presentation to CPIA Executive Committee
- Bylaws and Comparison Outline provided
- Hosted informational/Q&A session
- May 2022 – CPIA Board Approval

David Waller, who did not attend the meeting, sent the following statement in support of the Bylaw amendment. “The leadership teams of the Park, the legacy CPIA, and the new CPC Boards have spent a tremendous amount of time to ensure that these changes to the CPIA By-laws are fair and balanced for all parties.” He encouraged all to approve the changes.

President Batt has engaged Tut Kinney to review the Bylaws and the Cooperative Endeavor Agreement and Tut Kinney had no issue with the Bylaws and, will report back to the Board with any modifications he believes are necessary to the CEA. However, in his opinion, we should move forward with the Bylaws and Board Slate today.

**Proposed Modifications:**

- Jefferson Parish City Council appointee adjusted to come from the electorate
- Executive Committee adjusted to include two (2) at-large members
- Resignations may be provided to the Secretary or the Chair

**Bylaws -Guiding Principles**

- Aligned with national best practices
- Stick to the basics – Bylaws should deal with only the highest level of governing issues
- Be flexible
- Bylaws shouldn’t
  - Be a policies and procedures manual
  - Tie the hands of future board
- Bylaws are not the Cooperative Endeavor Agreement – they are independent of any relationship with an outside party.

**Motion:**

Commissioner Larry Katz moved, and Commissioner Mike Hollis seconded to Approve the City Park Improvement Association Bylaws as restated, reviewed, and discussed on May 24, 2022, by the City Park Improvement Association Board of Commissioners.

Steve Pettus expressed his concern about the removal of the Emeritus board members and the President’s appointee position. Commissioner Lupo is concerned that neither the President of the Senate nor the Speaker of the House has an appointee on the Board.
Commissioner Lupo moved, and Commissioner Katz seconded, to amend the Bylaws to include appointments from the LA Senate and the Speaker of the House. After discussion, the motion did not pass.

Commissioner Lupo moved, and Commissioner LeCorgne seconded to amend the Bylaws to allow the last five former presidents to nominate one Emeritus board member from among all past presidents. After discussion, the motion did not pass.

Lambright explained that currently the Emeritus has full floor privileges except voting and that all 14 former presidents are automatically considered an Emeritus. The Board Composition working group felt that the President’s Council was a more appropriate way to engage past presidents.

A discussion took place about having non-board members on the Executive Committee. Lambright said that the Executive Committee’s non-board members could influence issues prior to the full board, and a best practice would be to ensure the Executive Committee is only active board members.

Commissioner Lupo believes that there could be a potential conflict regarding how CPIA and CPC Bylaws are being revised together. President Batt noted that after speaking with Tut Kinney he was fine with adopting the By-laws and slates today. Batt noted that Tut will review the CEA with Rebecca.

Commissioner King moved, seconded by Commissioner Dale, and unanimously approved to adopt the City Park Improvement Association Bylaws as discussed. by the City Park Improvement Association Board of Commissioners.
