About New Orleans City Park:

For over 170 years, New Orleans City Park has provided access to abundant natural and cultural resources to residents of the region and visitors from around the world. The Park's 1,400 acres make it one of the largest urban parks in the United States. City Park is a popular place to fish on the bayou, picnic, experience safe outdoor play, or engage in athletic pursuits—as evidenced by more than 3.2 million unique visits each year. City Park's annual operating budget is largely derived from self-generated activities. The COVID-19 pandemic and Hurricane Ida, which significantly affected revenue-generating facilities due to restriction closures, highlighted the vital importance of diversifying revenue streams. Through these challenges, the Park's walking trails, urban forest, and open spaces continue to be a respite to the public. To learn more about the Park and to contribute to Park operations, visit NewOrleansCityPark.com.
